Hi Dena –

It looks like I will be getting involved.

Not sure how many of you have been to Oceano Dunes State Vehicular Recreation Area (ODSVRA), but the link immediately below will give you a virtual tour with 360° views, sound effects, plus additional photos from years gone by. Very low PM on the days when these images were taken. Of the images, “Moy Mei”, and “Oso Flaco Lake ” bridge and boardwalk are not within the “La Grande Tract Area,” which is the subject of efforts by the California Coastal Commission to improve air quality. The “Sand Highway” runs along the top of the La Grande Tract. The CDF monitor is approximately a mile east of the mid point of the Sand Highway. I believe “Pavilion Hill” is at the northern end of the Sand Highway and La Grande Tract. I’ve attached a map of ODSVRA to which I’ve added the approximate location of the CDF monitor.

<http://www.regal360.com/clients/ohv/>

Here’s some throw ins to give you a sense of some of the uses of the ODSVRA.

Also, lots of years gone by images in this link below. <http://www.bob2000.com/pismo.htm>

Youtube video from 2012 giving you a visitor perspective.

<https://www.youtube.com/watch?v=z4B910JjvFM>

Youtube of "Huckfest" which I believe is a competition involving off-road trucks and jumps.

Amy –

I touched base with Greg Haas today and he will be out of the office the week of July 25th, so agreed to follow up with him to set up a call with him for some time during the week of August 1st on the issue we discussed. Hopefully, that will give you and your team enough time to review monitoring data and any prep before a call is set up. Please let those on your staff know. Thanks.

Brent Maier
